Reference for Scott Stewart – 13/11/2023

I am the Support Groups Coordinator at One Door Mental Health.

I have known Scott since he volunteered to be a Support Groups Peer Leader in about May 2023.

Scott has been a consistent contributor to getting our new support group started. We met in person and he has been attending regularly online with other group members to help get the group started.

Scott has been consistent in his stated desire to use his knowledge and experience to help other people, as well as wanting to connect with a good network of understanding people for himself.

Scott has shared some of his written research with us and has been generous to share his experience. He volunteered to take notes for our last meeting without being asked and did a good job.

Scott has always communicated with us in a courteous, respectful and kind manner.

Scott has shown me his offence record but I'm happy to provide a reference for him despite understanding the limitations of our small amount contact.

Please feel free to contact me to confirm this information if needed, pending Scott's permission.
